

Enhancing ecosystem services mapping for policy and decision making

ESMERALDA final Conclusions and next steps

EU Horizon 2020 Coordination and Support Action

The End

... some (alternative) facts

It wasn't easy to make this acronym, but after that we found an impressive high number of the project's name variations:

- ★ ESMERALAD
- ★ EMSERLADA
- ★ EMSERALDA
- ★ EMSRALDA
- ★ ESMERALDER
- ★ ESMERALDADA
- ★ ESEMRALDA
- ★ ...

Some alternative ESMERALDAs

... more (alternative) facts

During the lifetime of ESMERALDA ...

- ★ Number of Children born by ESMERALDA people: 6
- ★ Number of marriages of ESMERALDA people: 2
- ★ Number of completed PhD theses in ESMERALDA: 3
- ★ Number of beverages drunken ... unknown

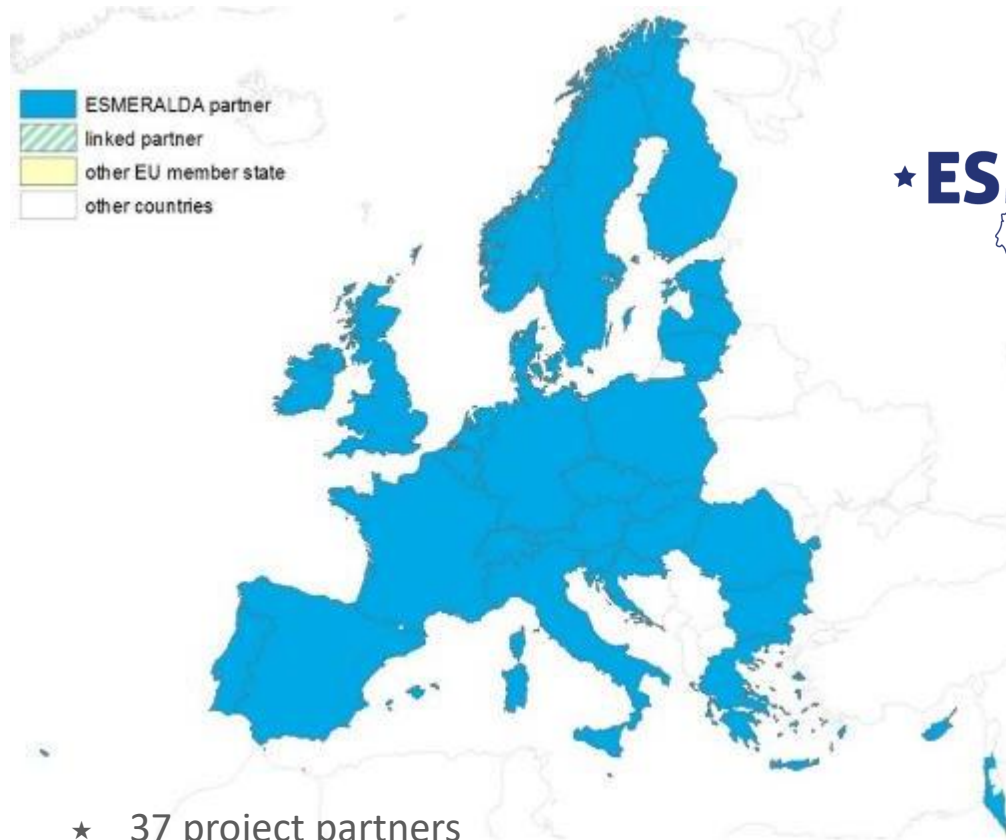

ESMERALDA was also flexible in language use:

- ★ Woooopee (for WP) - Davide
- ★ Kickes (for CICES) - Petteri
- ★ Tweesday - Fernando
- ★ Beers (for cheers) - Fernando
- ★ Datable (for data table) - Fernando

But seriously, how to maintain this beautiful network?

- ★ 37 project partners
- ★ all 28 EU member states
- ★ Switzerland, Norway and Israel
- + contacts to EU outermost regions and EU candidate states

Possible next steps

- ★ Use **ESP** and **OPPLA** platforms to continue networking
- ★ Apply for new **joint projects** (COST action?)
- ★ Work in **new projects** (e.g. MOVE, MAIA, SCOPES, ...)
- ★ Promote ES mapping and assessment / **MAES** in your countries and at EU level
- ★ ...
- ★ Further ideas to be collected in the context of **Deliverable report D2.5** (Business Plan to sustain Network beyond ESMERALDA), due June 2018

Definite next steps

- ★ Do not forget that the **project is still running until end of July!**
- ★ Several **Deliverables** are still due
- ★ The ESMERALDA **MAES Explorer** needs more input
- ★ Finalise your articles for the ESMERALDA **Special Issue**
- ★ And of course ... do not forget the **final project report** due in September!

**Thanks to everyone, it was an honour to
coordinate and support with you!**
