

## Added benefits of Green: The Antwerp Greentool

## Why? 1HWN01 Antwerp is a sustainable city

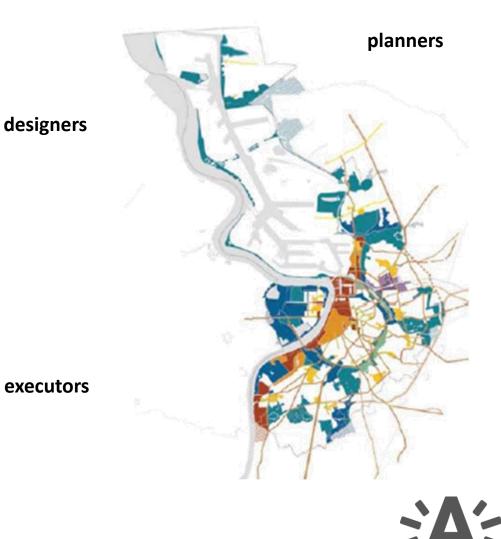

## For whom?

## What?

#### YES

Taking green measures into account as a full-worthy element from the start of the planning proces Feeding / stimulating dialogue Informing and inspiring

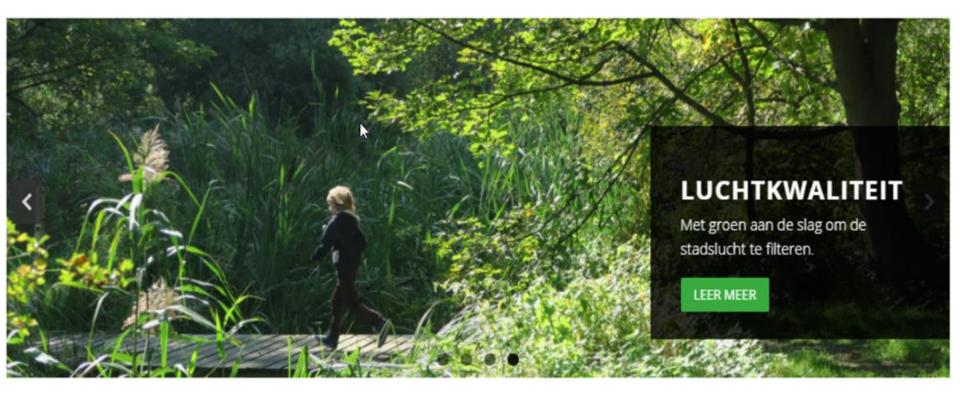

#### NO Design-tool Decreeing instrument

HOME GEBIEDSANALYSE THEMA'S GROENMAATREGELEN OVERZICHTSKAARTEN HELP LINKS LOGIN

:A:

## How?

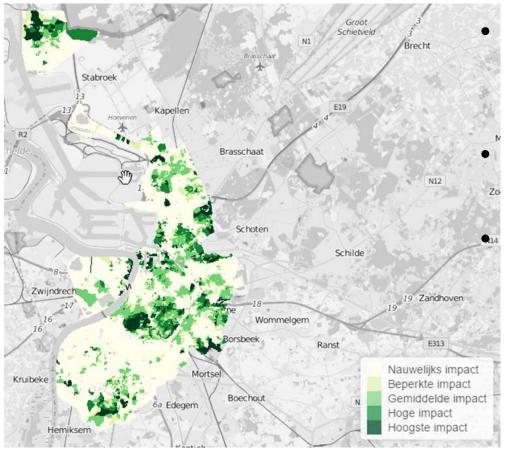

- 1. Analysis
- 2. Inspiration and information on themes and measures
- 3. Making existing maps accessible
- Collect and share all information regarding green in the city

Bloemenakkers en bloemenweiden (toepasbaar in 57% van het gebied)

## Eg. Use for greening strategies

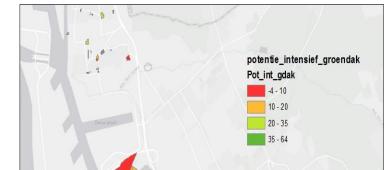

For which themes different neighbourhoods have challenges?

Where calls biodiversity for extra attention?

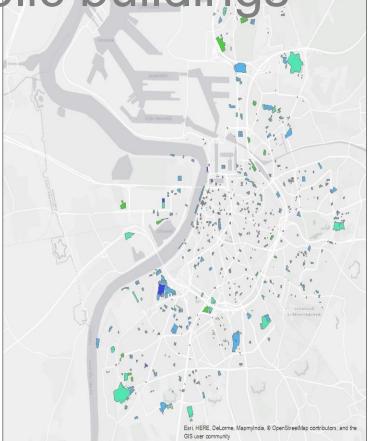

Where do greenroofs have the highest impact?

Potency waterretention
